Summary

Computer Engineering graduate (2026) with a strong foundation in programming, problem-solving, and web development. Hands-on experience through internships and academic projects. A reliable team player proficient in HTML, CSS, JavaScript, Java (Core), SQL, C++, and basic Python, with a keen interest in learning new technologies and building efficient, user-friendly, responsive applications.

Education

Marathwada mitra mandal's institute of technology
Bachelor of Engineering (Computer Engineering) – First Class with Distinction (2026)

Dr. Umate Junior College
Higher Secondary Certificate (HSC) – 82.17%

Mount Carmel Convent High School
Secondary School Certificate (SSC) – 86.4%

Technical Skills

– **Programming Languages:** Core Java, SQL
– **Web Technologies:** HTML, CSS, JavaScript, Bootstrap
– **Data Structures:** DSA Fundamentals
– **Tools:** GitHub, Visual Studio Code, Jupyter Notebook, Google Colab

Work Experience

Front End Developer Intern Jan 2025 – Mar 2025
InternsElite
– Developed responsive web applications using HTML, CSS, and JavaScript
– Worked on UI design and client-side functionality optimization

Web Developer Sep 2024 – Oct 2024
Corizo
– Integrated third-party APIs to enhance website functionality
– Streamlined data handling and improved user experience

Certifications

– Web Development Certification – InternsElite (2025)
– Web Development Certification – Corizo (2024)

Projects

Marathi Programming Language (Mini Compiler / Interpreter) Python / C++
– Designed a basic programming language using Marathi keywords
– Implemented syntax rules and logical execution for control structures
– Translated Marathi commands into executable program logic

Personal Portfolio Website HTML, CSS, JavaScript
– Developed a responsive portfolio website to showcase skills, projects, and education
– Designed an interactive and user-friendly interface to highlight technical expertise

PDMart Website Clone HTML, CSS, JavaScript
– Developed a grocery shopping website clone with product listings, search, and category navigation
– Implemented interactive UI features, including popups, location selection, and cart functionality
